How to make a deposit on your Vantage Markets account?

1. Click on 'Funds' on the left side of your dashboard.

2. On the screen you can select the preferred method to deposit an amount to your account. There is no minimum deposit fee. However, we recommend starting with a minimum of €300 to see small noticeable results. The average people deposit to their accounts is around €750.

We recommend using Credit/Debit card, Apple Pay/Google Pay, iDeal or any other method that is a '24/7 INSTANT' service. This way your deposit will go into your account directly which speeds up the process.

3. Once the deposit has been completed, you'll have access to your deposit in your Vantage Markets account. You are now ready to make some real money! Send the log-in credentials to me, and me and my team will connect your account to the system.
